

Utility Data Release Form
Garfield Clean Energy and Clean Energy Economy for the Region

By signing this release form, I grant Clean Energy Economy for the Region (“CLEER”) permission to access electric and natural gas consumption information, which may include data provided by Symbiotic Engineering via their “Resource Utilization Reports” for the address listed below for purposes of identifying both my historic and future energy consumption.

I understand that consumption information provided to CLEER will be used to track my energy use starting with the month of January for the two years immediately prior to my application as well as my future energy usage occurring for five years after my application.

In the event an energy audit has been conducted for the two years immediately prior to my application (*during my ownership and/or occupation of the address listed below*) I will make a request to the applicable utility that such audit results be provided to CLEER. This energy consumption and audit information is necessary to evaluate the success of measures funded through Garfield Clean Energy’s residential and commercial energy programs.

I understand that my specific energy consumption and audit information obtained by CLEER will be treated by them as highly confidential and will not be used for any purpose other than that specified herein, subject to the requirements of the Freedom of Information Act, the Colorado Open Records Act and the regulations of the Colorado Public Utilities Commission.

I understand that the utilities identified below have no control over the use of my energy consumption or audit information once it has been provided to CLEER and therefore release them from any liability for damages or harm that may come about as a result of the use or misuse of my electric and/or natural gas consumption information or the results of past energy audits.

I hereby authorize the below listed utilities to provide CLEER with consumption information for the account number(s) listed below including any “Resource Utilization Reports.” If applicable, I also hereby authorize the release to CLEER of any energy audit results previously conducted for the account(s) identified below.

Utility Provider	Account Holder Name	Account Number(s)
Xcel Energy Premise Number(s): _____		
Source Gas
